

My name is Giorgio Musaio Somma, directional consultant in *Company Organisation and Production Flow*. My job is to reduce waste in an effective way in order to increase profitability and efficiency.

In this work, in addition to factory design, I have more than twenty years experience and a broad client base, disseminated all around the world, with which we reached many ambitious goals. Sometimes we even just did an *audit* aimed at understanding the possibilities for business improvement.

My Company, PHI MANAGEMENT, has specialized in consulting for the manufacturing sector since 2001, where the “machine” is the man! Our experience is particularly thorough in furniture, shoes, clothing factories, and in a specific way, in those of upholsteries furniture, mattress and so on.

Like it is written in our Company Profile, reported below, we have worked on the consultancy, design and the start-up of new companies in: Italy, Brazil, Russia, Kazakhstan, China, Iran, India, etc., and this has given the possibility to know and to improve productive systems worldwide.

The consultancy is directed to the CEO of our client Society and can be performed in all the functional areas of the client company combining the skills of different consultants that work with us.

In the following link you can visit our *Youtube channel* where you can find a presentation about our activities in English:

<https://youtu.be/HUKZYDI9QNY>

Moreover, there is also a television recording (in Russian with English subtitle), where there is the CEO of Mebel & Zeit Russian Company, who shows the improvements in their own business thanks to our consultancy (with a **3 times better productivity**):

https://www.youtube.com/watch?v=phL_xJ5IX8Q

In the following the link is our website:

www.gruppophi.com

For further questions, please don't hesitate to contact me.

We are exhibitors in the Interzum 2015 in Cologne, 5-8 May 2015

Hall 9.1 – Stand B31 – with the Company Ciccimarra Engineering S.r.l.

Best regards

Giorgio Musaio Somma

PHI MANAGEMENT Srl

PHI MANAGEMENT srl is an Italian company that deals in directional consultancy in *Company Organisation and Production Flow*. Founded in 2001, with a registered capital of 100.000 Euros, it has two partners both Administrators, with many years experience in the consultancy sector.

Giorgio Musaiò Somma, legal representative, graduated in electronic engineering, has gained more than twenty years experience in directional advising for many Companies at any stage of the business process, focusing in the manufacturing industries.

Antonio Liuni, graduated in computer science, has been project manager in several I.T. implementation projects, he is senior Oracle consultant.

Our goal is to increase the competitiveness of the client company obtained through the reduction of fixed assets and costs.

PHI Management provides a comprehensive suite of service-oriented consulting for manufacturing companies, particularly on these sectors:

- ✓ Production of furniture, especially upholstered furniture (sofas, mattresses, etc.);
- ✓ Production and processing of polyurethane foam;
- ✓ Shoes;
- ✓ Clothing;
- ✓ Blacksmith workshops, factories bed bases and springs, transformation mechanisms, etc.;
- ✓ Porcelain stoneware processing.

PHI Management operates worldwide, with many customers distributed in different countries (Italy, Russia, Ukraine, Kazakhstan, Brazil, China, India, Romania, Iran, Lithuanian, etc.. etc..) and institutional contacts that can help Italian companies to internationalize.

In particular, in Russia there is a Company that represents us: the IDEA Ltd (ООО ИДЕА).

Main PHI MANAGEMENT activities are the following:

- Temporary management
- Business Process Organization
- Production cycles Optimization
- Storage and buffer analysis and optimization
- Project manufacturing
- Project of equipment
- Technological innovation and process technologies
- Research & Product Development
- Software for process control and production
- Business management software

Experiences in Italy

Giorgio Musaiò Somma worked for 7 years with INDUSTRIE NATUZZI: as executive committee member, head of the "Process Technology" and the "Costing and Testing Area" involved in industrialization and product cost calculation.

He has directly contributed to the huge expansion that the company had over the years 1994-2001, dealing with the design of several new production plants departments as well as investment analysis, new technology, process flow, industrial automation, and so on. He also designed and managed the start-up of the first factory in China's INDUSTRIE NATUZZI (ITALSOFA SHANGHAI).

In 2001, he founded the Company PHI MANAGEMENT SRL and he extended his experience to the corporate and production planning and logistics, working for other companies in the furniture

industry producing high quality products and design such as GAMMA ARREDAMENTI (Forlì), DOIMO of Mosnigo of Moriago (Treviso), EPOQUE (Altamura - BA).

Obviously the Company has provided consultancy for numerous factories in the province of Bari and Matera, in the south of Italy, situated near the office of PHI MANAGEMENT.

The consultancy service, strongly focused on upholstered furniture manufacturers processes, created a significant experience for the production of raw materials processes such as: carpentry, production of polyurethane foam, polyurethane foam cutting, filling the cushions with polyester fibres.

The advice services has been extended to companies that produce mattresses and shoes such as: JEANNOT'S, PEZZOL, ROMITA.

Experiences abroad

In addition to the start-up of the first factory ITALSOFA SHANGHAI, PHI Management carried out consultancy for the Internationalization of businesses for some Italian clients in CHINA, VIETNAM, THAILAND.

Giorgio Musaiò Somma designed, as a part of a massive investment, an industrial park to be developed in Romania, composed by upholstered furniture factories with the main factory based in the provinces of Matera and Bari. The leader of the Consortium was the tannery ECOLEATHER of Monopoli (BA). The project was sponsored directly by the Prime Minister Adrian Nastase.

Consultancy services were provided for the factory A. PRIORI in KAZAKHSTAN for 6 months. From 2005 to 2009, was completely reorganized MZ5, the largest company in Russia for production of furniture and upholstered furniture and owner of *Mobel & Zeit* and *Formula Divana* brands. During the transformation of the businesses, strategies were defined to increase industrial growth and new factories were built.

Moreover, AURORA furniture factory in Dimitrovgrad (RUSSIA), was redesigned and, in 2011-2012, the factory of upholstered furniture VASC DIEN (Ваш День) in Kostroma was completely reorganized, where we developed new strategies for managing information to increase the company's profitability, to innovate technology, Research & Development and Marketing.

PHI Management has performed many *audits* (weekly advice for measuring the state of the organization): EKMI in UKRAINE, 8MARTA, PUSHE, UNITAL/SAIWALA in RUSSIA, EKMI in UKRAINE, RED APPLE in Shenzhen CINA, GM Italia/Country Elements and ITALROM in ROMANIA, etc.. etc. ..

Another assignment received in Russia is FOAM LINE-DEKAFOAM, the largest company in the manufacture and cutting of polyurethane foam and, in 2014, a new company was organized in the city of Slobodskoy – Kirov province.

In 2008 a large new factory in IVORY COAST, capable of producing 5.000 seats per day in 130,000 square meters, was designed.

In BRAZIL, we carried out a consultancy for

- ORTOBOM - Rio de Janeiro - the largest Brazilian firm mattresses which owns 55% of the market of its country.
- LEGACY-LUDIVAL - Rio Claro - one of the largest companies in the sector of living sofas in Brazil (250,000 seats per month) that had the biggest customer in the large distribution chain CASA BAHIA.

In 2010 we designed a 30,000 square meter industry in INDIA. on behalf of THEMA INT LTD, of Calcutta, a leading Indian manufacturer of furniture with 2,500 employees.

In 2012 we designed a new factory for upholstery sofas in Teheran IRAN.

ERP Project Implementation

We pursued several Oracle ERP projects. Antonio Liuni is currently a project manager at the United Nations and he has closed many other large projects for: FAO, the BRITISH GOVERNMENT, UNICREDIT BANK, GENERAL ELECTRIC, FIAT AUTO, UBI BANCA.
